PROFESSIONAL SUMMARY

Motivated 3rd-year Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning. Passionate about backend web development and applying machine learning concepts to real-world applications. Strong foundation in Python, web frameworks, and Data Structures and Algorithms (DSA), with active participation in coding challenges and technical workshops.

EDUCATION

Noida Institute of Engineering and Technology (NIET)

2024 – Present

B.Tech in Computer Science Engineering (AI & ML) — 3rd Year

- Focus areas: Artificial Intelligence, Machine Learning, Data Structures and Algorithms.

EXPERIENCE & INTERNSHIPS

Intern Alpha | Web Development Intern

June 2026 – Present

- Developing responsive, accessible web applications using modern semantic HTML5 and CSS3.
- Implementing modern layout techniques to ensure cross-device compatibility.

CodSoft | Python Programming Virtual Intern

July 2025 – August 2025

- Completed a 4-week virtual internship program focused on developing hands-on Python programming skills.
- Executed assigned tasks and projects, demonstrating a strong capability to learn and apply technical concepts independently.

PROJECTS

Employee Management System

- Designed and developed a comprehensive web-based platform to manage employee records and workflows.
- Handled backend logic, database migrations, and overall architecture.
- Technologies Used:** Python, Django

Personal Developer Portfolio

- Built a fully responsive developer portfolio from scratch to showcase technical skills and projects.
- Hosted and deployed the application securely using a modern cloud-hosting provider.
- Technologies Used:** HTML5, CSS3

TECHNICAL SKILLS

- Programming Languages:** Python, HTML, CSS
- Frameworks & Libraries:** Django, FastAPI

- **Core Competencies:** Data Structures and Algorithms (DSA), Backend Web Development, Machine Learning, Object-Oriented Programming

WORKSHOPS & CONTINUOUS LEARNING

- **AI Tools Workshop:** Completed specialized training via Be10X.
- **Algorithmic Problem Solving:** Actively solve DSA challenges on platforms like LeetCode and HackerRank; completed technical coursework via GeeksforGeeks.
